MATERIAL

Composition	Recycled Rubber Granules with EPDM Pigment and PU Binder.	
Properties	Anti-slip Resistance and durability Elastic resistance Abrasion resistance Compression and impact forces resistance Comfortable Acoustic insulation	
Density	Approx. 950Kg/m ³	
Hardness	Approx. 65-70 Shora A	GB/T531-1999
Tensile strength	Approx. 1.4MPa	ASTM D882-02
Elongation at break	Approx. 170%	ASTM D882-02
Reaction to fire	Efl	EN 13501
Colours	 Black  Black/Blue  Black/White	

Notes: Its composition and appearance can change, while maintaining its behavior and performance.

Alpha Burly recovery capacity may differ with the temperature range.
